

MALAM JABBA

Malam Jabba is a hill station located in the Hindu Kush mountain range. It is immensely popular among the masses because of its amazing ski resort. Unfortunately, it is the only developed ski resort in Pakistan. People from different countries come to visit this spectacular ski resort. Other than the ski resort, Malam Jabba is the home of many historical sites. There are two Buddhist stupas and almost six monasteries that are spread around the resort. Some sites have indicated that Malam Jabba was populated even 2,000 years ago.
